

MEETING GIRLS' NEEDS DURING COVID-19

This data is compiled by Alliance for Girls' (AFG) youth research team. In March 2020, [this short survey](#) was developed for girls* in California up to age 24 for an ongoing data analysis at different time points of girls' experiences during the COVID-19 crisis. This current snapshot captures 807 responses from girls as of September 4, 2020. As AFG collects more data, it will present it with an intersectional analysis. To see previous data snapshots, please visit the research section of Alliance for Girls' website: www.alliance4girls.org/research.

As of September 4, 2020, we have heard from 807 Girls*.

They described their gender identity as:

Female

Their ages ranged from 5-24, with the average being 15.1 years.

≤13 years

Non-binary

14-19 years

Not Answered

20-24 years
